

Circle Dance

Children gather all around music to dance that I have found
Dance that's meant for me and you. A dance that all can do
Make a circle round and round. Time to move to the rockin' sound
Everybody joining hands it's time for the circle dance

Move your circle round and round Step to the right to the rockin' sound
Come on children, here's your chance to do the circle dance

Raise you arms high in the sky
Stretch your fingers higher and higher
Bring your arms down and shake them around
Everybody join your hands, it's time for the circle dance
Move your circle round and round Step to the right to the rockin' sound
Come on children, here's your chance to do the circle dance

Put your hands on your knees, please
Bend down low and touch your toes
Stand up again ready my friends
Everybody join your hands, it's time for the circle dance

Move your circle round and round Step to the right to the rockin' sound
Come on children, here's your chance to do the circle dance

Step into the middle of the circle
Take a step back to your place again
Step into the middle then back again
Everybody join your hands, it's time for the circle dance

Move your circle round and round Step to the right to the rockin' sound
Come on children, here's your chance to do the circle dance

Turn yourself around and around
Spin around to the rockin' sound
Now it's time to slow down
Everybody join your hands, it's time for the circle dance

Move your circle round and round Step to the right to the rockin' sound
Come on children, here's your chance to do the circle dance
