

Lullaby

Rock a bye my baby, I'll rock you in my arms
I love my little baby, I'll keep you from all harm
Rock a bye, Rock a bye
Sweet little child
Rock a bye, Rock a bye
I love your little smile

Kiss you little baby, kiss him on the cheek
Kiss you little baby, kiss him on the cheek
Time to hug your baby
Hold him close to you
Hug your little baby
Hold him close to you

Walk your little baby, walk him all around
Walk your little baby, walk him all around
Walk around, walk around
Sweet little child
Walk around, walk around
I love your little smile

Time to hold your baby, hold him very close
Time to hold your baby, hold him very close
Pat your little baby, lightly on the back
Pat your little baby, lightly on the back

Time to sleep my baby, time to close your eyes
I love my little baby, no need for you to cry
Rock a bye, Rock a bye
Sweet little child
Rock a bye, Rock a bye
I love your little smile
