

Circles Go Round

Circles go round and round. All of the circles I've found
Go round and round like a merry go round. Circles go round and round

Can your fingers make a circle? Touch a finger to your thumb
Hold your circle up to your eyes. Look through your circle at someone

Can your arms make a circle? Touch your fingers over your head

Now you look just like the sun.

Can you smile on everyone

Can we all make a circle?

Gather around and all join hands

When we all have made a circle

Let's make it go round like a merry go round

Circles go round and round. Round and round like a merry go round

Up and down and round and round. Circles go round and round

Circles go round and round. Round and round like a merry go round

Up and down and round and round. Circles go round and round
